Test

Mikä on Node.js

Node.js on sitä ja tätä. Alla esimerkki.

```
var http = require('http');

//create a server object:
http.createServer(function (request, response) {

    response.writeHead(200, {'Content-Type': 'text/html'});

    response.write('<h1>Hello World!<h1>'); //write a response to the client
    response.write("&<h2>How are you today</h2>");
    response.write("<img src='https://software.intel.com/sites/default/files/managed/fa/a0/Runtime-logo-Node.jpg'>");

    var data = "<table border='1'><tr><td>Eka solu</td><td>To  
ka solu</td></tr><tr><td>Eka solu</td><td>Toka solu</td></tr></table>";

    response.write( data );
```

```
response.end("<strong>This is the end</strong>"); //end  
the response  
}).listen(8081); //the server object listens on port 8080
```
